

Welltech Total Water Management are renowned as Australia's leading Construction Water Supply specialists. When you need an innovative, mobile water supply system that increases productivity, reduces costs, and occupies only a small footprint on site you need Welltech's Frac 80™.

Welltech Frac 80™

Why Welltech Frac 80™:

- Large 80,000lt total capacity, offering high volume flow rates;
- Wheeled or Skid-mounted with intermodal and trailer style format allowing for fast, easy and cost-effective mobilisation to remote sites;
- Tanks are fitted with sump drain points to maximise the full capacity;
- Engineer designed, with features to support a rapid deployment and safe operations. Including AS 1657 compliant stairs, 600mm side access for easy access, 2 x 500mm roof hatches, and central valve on front and rear allowing operation from either end;
- Tanks are fitted with 8 inch manifolds with multiple 4 inch couplings so can be used standalone or combined into a farm configuration for unlimited volume;
- Run a fleet of water carts from the one installation;
- Ideal for static water storage, occupying a small footprint on site;
- Internally coated with Tankguard 412 and sterilised for a potable water option;
- Our highly skilled teams are available to mobilise our in-house fleet at a moment's notice;
- You can be assured we will deliver as promised and you will be supported by Welltech's guarantee of *Commitment = Satisfaction*.

Fast delivery and installation

High volume flow rates

Run a fleet of carts from one installation

Delivering innovative solutions that work

Commitment = Satisfaction

David Henderson

For over 30 years, David has been providing workable solutions in an industry that requires absolute commitment.

David takes full accountability and responsibility for each and every project, ensuring company values and promises are kept. This gives our clients confidence that we will make decisions and will provide answers when they need them.

David's training in project and contracts management delivers peace of mind that Welltech and our clients are all on the same page with a clear understanding of strict deadlines, as well as project compliance duties and responsibilities.

"If you can't find a solution elsewhere, you will find it here – guaranteed".

From an ambitious dream to reality.

Once committed, Welltech are renowned for being finishers.

"Our unwavering dedication and commitment to achieve the very best, drives us relentlessly towards the ever moving goal of absolute perfection."

CEO David Henderson

Commitment = Satisfaction
