

Welltech Total Water Management are renowned as Australia's leading Construction Water Supply specialists. When you need a safe, durable, pipe support system that increases productivity, reduces costs, and occupies only a small footprint on site you need Welltech's PipePRO™.

Welltech PipePRO™

Why Welltech PipePRO™:

- Our versatile, interlocking support units allow hoses and pipes to be elevated to the required height guaranteeing they'll be stable and secure;
- Ideal for achieving a safe, clean, and sustainable work site as they eliminate unsightly props and trip hazards;
- Durable, reusable, and waterproof;
- Prevents pipes from rolling with its unique concave design;
- Relieves stresses and prevents hose or pipe from sagging;
- Super lightweight UV HDPE construction making PipePRO™ easy to transport, handle, and set up;
- Suitable for both temporary and long term pipeline projects;
- Flat design prevents point loading;
- Ideal for uneven terrain and can be anchored to any surface;
- Available in large and small - suitable for pipes from DN75 up to DN630 in diameter;
- Our units are available to purchase or hire;
- Designed, engineered and built by Welltech, in Australia;
- You can be assured we will deliver as promised and you will be supported by Welltech's guarantee of *Commitment = Satisfaction*.
